alright sucka, you are at your parents house in johnson county.
sittin' back on that nice leather couch watching the season
premier of melrose place or some other wacked out shit like that
when all of a sudden your mother sneaks up behind you and
proceeds to BASH YOUR HEAD IN WITH A BASE BALL
BAT, then she throws your bloody corpse out on the ol' grill for a
nice bar-b-q! and maybe if there's leftovers she'll sell a nice big
thick juicy slab of YOUR PANSY ASS to that fat guy next door.

heres the point, if some dumb fuck raised a kid and killed it they
would be locked up for being the SICK FILTHY MURDERER
that they are... everyday innocent cows, pigs, and chickens are
being raised only to be brutally slaughter & end up on YOUR
dinner plate. were talking about living, breathing, thinking
creatures... just like you bubba!

ANIMALS ARE NOT BIOLOGICAL MACHINES HERE FOR YOUR EXPLOITATION

people often use the excuse that its OK to eat dead cows in your
big macs because the animals were raised to be killed, and they
wouldn't live if it weren't for the meat industry... if this is what
you think you are smoking to much crack. you are wacked, and
you should be hit over the head with a baseball bat by the people
who raised you!

at this very moment cows and pigs are being slaughtered. their
throats cut following stunning using a captive bolt pistol. this is

held to the animals cute little head & penetrates the brain when
fired. however, due to inadequate voltage and/or improper use of
equipment the animal is often not successfully stunned, resulting
in considerable distress & means the animal will still be
conscious during throat cutting.

** 15 million pigs are slaughtered each year !*

what did the animals do to deserve this... theft? rape? murder?

NO! YOU ARE THE ONE GUILTY OF MURDER

our inhumane treatment of animals is horrible, but even worse is
our justification for it. people seem to think that the whole world
& all of its animals belong to the human race, and are at our
disposal

to do any vile & evil thing that crosses our greedy minds. its true
that the early human jaw bone structure was that of a herbivore.
since then through de-evolution we have become carnivorous
meat eating bastards.

in past man may have been forced to adapt to a meat based diet
out of necessity. today as an intelligent species we must stop the
insanity! this is not not only a health issue, but one of social
justice & morality filthy meat eating diets should not be tolerated
